Today the senior class of 1961, clad in black caps and gowns for the first time, will walk down that long aisle in Russell Auditorium to participate in GSCW's convocation program. Convocation Day is the formal opening of our school year. For the senior class, today is the beginning of the end—the beginning of that last year of college. It is a day of anticipation for the class of '61, for each senior realizes that today's preformance will be a dress rehearsal for that day, a few short months hence, when she will walk down that aisle for the last time and receive her cherished diploma.

#### **Welcome To GSCW!**

Welcome freshmen! I am sure that Dr. Lee, Dr. MacMahon, Dr. Chandler, the faculty members, campus leaders, your Big Sisters, your Junior Advisors—the entire GSCW campus has extended to you a warm welcome and now the COLONNADE would like to add its welcome. We are truly glad that you have chosen GSCW to be your home for the next few months, and we feel confident that you will not regret your decision.

You realize, of course, that as GSCW girls, you will be expected to make straight A's in all of your subjects, be a member of and actively participate in all organizations on campus, attend every concert, play, and lecture, play bridge at least one hour a day, a-n-d get eight hours of sleep each and every night. Impossible? Nonsense. Everybody does it. Right, upperclassmen?

" By the way, some of the upperclassmen might have been giving you some advice about which subjects are easy, which are hard , which teachers are easy-going, and which are not so easy. Don't pay any attention to them; they're just trying to frighten you. All of the subjects are difficult, and every teacher acts as if his subject is the only one you are taking. So just resign yourself and get ready to work as you have rever worked before.

Let's be serious for a minute. Some of you freshmen are coming to GSCW knowing that you want to major in elementary education, English, chemistry, history, or math. You are lucky, lucky girls; you know early in college what you want to do with your life and you can start now working toward that goal. But some of you have not decided on your major and may be worried about choosing one. Don't rush into anything and don't let yourself be pushed into anything without giving it a lot of consideration. You still have plenty of time to make up your mind.

Welcome home, upperclassmen! Welcome back to another alorious year at GSCW! Don't groan when I say that; it isn't nice. Someday we'll probably look back on these years as the most wonderful of our lifes, but at the present all we see is the hard work ahead. But don't fret, we'll make it some way.

And last, but certainly not least, welcome back, faculty! Although we may deplore the difficult tasks you assign us, we are certainly proud of our faculty members and we are ready once more to return to your classes in order to glean a few drops of wisdom.

### Freshmen's First Impressions

A glimpse of our college community as seen from beneath a bright gold cap complete with four familiar letters helps to bring out some good points found in resounding phrases.

Martha Webson of Atlanta leads off with an opinion formed last fall. "My first impression was formed even before I applied for admission. I was very impressed by the friendliness of all the girls I met and of the various members of the faculty with whom I came in contact. The campus atmosphere seemed to be one of a big, happy family, even down to good food."

The fact that we as students were governed by our own honor particularly pleases Harriette Sikes. Pledged test papers were new as well as appealing to her.

Sue Ann Barnes, a south Georgia peach, found the scenery quite beautiful and different from that near her home.

In contrast Shirley Moore, whose home is barely a twenty minute drive from Milledgeville, found that her Junior Advisers "... just brightened up my room. Right then I felt as if I was a part of GSCW."

"Oodles of girls," along with a friendly atmosphere and a beautiful campus, composed Gloria Collins' impression.

"The people are wonderful and friendly, the food — delicious, the schedule — full and everything together is tops," says Nancy Oglesby of McDonough.

that expected to be homesick, ". . . but they round coffee table with white formica top and don't give me time. Thank goodness!"

Another student who hasn't time to be affected by that dreaded disease, probably most provided. Also, in case a number of people common in freshmen, is Catherine Seals. She's crazy about GSCW, the friendly people and their concern for the feelings of others.

The friendliness and sincere acts of GS CW girls made me feel very much at home. I felt as though I would soon be a part of the college life," stated Joann Cofield.

"A close circle of sisters" is the way in which Faye Ashley of Thomson chose to describe Jessie. "The thought of having a Big Sister and Junior Advisers and knowing that when I have a problem I can go to them certainly makes me efel good," she added.

'Greatly impressing to Jeanie Cardler was the close relationship between the student body and faculty members as well as the attitude the students have toward each other.

In an unfamiliar place buildings sometimes appear to be identical. Gloria Mays was impressed by the fact that every one was eager to help her get acquainted with the campus. Alice Sue De Pratter of Nahunta liked the

apparent high spirits of the upperclassmen. "I really love it here," says Dianne Milita-

des. Both the people and the campus were included in that statement.

Helpfullness and the ability to feel "right at home" were qualities that Gayle Butler, a West Point lass, brought forward.

When a freshman first enters the college gates the perpetual questions of where to go first arises. Lynda Riggins of Blackshear was impressed by the anxiousness of upperclassmen to answer the question for her.

"I am so excited and pleased with GSCW." And for once a lady couldn't think of exactly what to say. However, Betty May did state

that she was glad she had chosen GSCW. Margie Howard, who was a summer stu-

dent, was impressed by a beautiful campus and a friendly atmosphere.

"You feel as though the upperclassmen were waiting to meet you and to help you," said Clare Roberts, In the same breath she announced, "I'm in love, literally, with this school."

A trio of freshmen, Vickie McRae, Sally Sue McCollum, and Sue Stewart, all agreed that the friendliness and helpfulness of students and faculty pleased them.

#### **New Look For GSCW**

Here and there on the campus are signs of many changes which have taken place during the summer months. Terrell A and Proper may rightly claim the most changes, for the baths in Proper have been done over and now claim both showers and tubs. After seeing these new accommodations this summer, some freshmen definitely decided to make Terrell Proper their new home.

All three floors of Terrell A's bathrooms have been renovated completely. The new black and white tile give a sparkling and pleasing appearance. New sliding doors have been installed in all the closets in Proper and A. Plans are underway to renovate Terrell B and 'C gradually.

The Sanford girls have beautiful new furniture in their rec hall to boast about. There are modern sofas with matching chairs of blues, black and yellow plaid; striped sofas with Leina Jones was among a sizeable group chairs; and yellow and blue chairs. A low end tables of formica tops have been added. For those who may be interested in a card game, a Luau table with four stools has been should plan to eat in the rec hall, there is a flip top table which will open to seat eight people. Sometime in the near future, the Sanford girls are hoping for a new floor of gray with black decks to complete this attractive rec hall.

In Chapel Thursday, the Seniors seemed quite proud of their new mattresses.

New windows have improved the gym, and workmen are in the process of giving Beeson's parlor a fresh coat of green paint.

This year The Colonnade and Spectrum will move their offices from the basement of Parks to more roomy quarters on the top floor of Parks.

But no matter how small or large these improvements are, they are making GSCW's campus a place that each Jessie can be proud
